

MOTIP Tyre Cleaner

Ord.-no.: 090502

Technical Information

Make car tyres look new again with MOTIP Tyre Cleaner. The foam makes the car tyres clean again and intensifies the colour of the tyres. It is user-friendly, leaves a gloss finish, protects against the weather and can even be applied to wet tyres. Tyre Cleaner contains silicones and has a low solvent content.

Quality & properties

- Cleansing foam
- Does not harm brake parts
- Gives a glossy result
- Low solvent content
- Can be applied on wet tyres
- Protects against weather influences
- Contains silicones
- User-friendly

Physical & chemical data

- Base: Polydimethylsiloxane emulsion
- Colourname: white
- Smell: Characteristic
- Surfaces: Tyres
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Vapour pressure: 3500/20 bar
- Relative density: 0.97 g/ml
- Content: 500 ML

How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The aerosol should have room temperature.
- Best processing temperature 10 to 25°C.
- Before use, shake the aerosol.
- Avoid contact with the brake parts.
- Apply tyre cleaner in an equal layer on the flanks of the tyre
- After breaking of the foam, tyre cleaner will flow from the tyre as a liquid, removing the dirt and leaving a protecting film.
- Not suitable for two-wheelers!

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labeling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.
