

MOTIP Airco Cleaner

Ord.-no.: 090508

Technical Information

Clean and condition the air conditioning of the car with MOTIP Airco Cleaner. The foam ensures that the air conditioning of the car is clean again. It provides a subtle scent as well as lasting prevention of odours.

Quality & properties

- Effective cleaning foam
- Optimizes the functioning of the air-conditioning
- Subtle scent
- Prevents malfunction

Physical & chemical data

- Base: Tenside solution
- Colourname: no colour
- Surfaces: Air Conditioning
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Vapour pressure: 3500/20 bar
- Relative density: 0.967 g/ml
- Storage stability: 10 y
- Content: 500 ML

How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The aerosol should have room temperature.
- Best processing temperature 10 to 25°C.
- Before use, shake the aerosol.
- Before treatment, switch off the engine and the electrical installations.
- Apply the foam to the evaporator of the air conditioning by means of the enclosed adapter. Insert the adapter about 30 centimetres into the air inlet of the air conditioning and completely empty the can.
- The location of the air inlet differs per brand, consult your dealer.
- After applying, do not switch on the engine or the electrical installations for at least half an hour. In this half hour the foam will break and leave the system through the condensed water outlet as a fluid.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labeling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EEC in the actually valid version.
