- Smell:
  - ◊ Orange
  - ◊ Lavendar
  - ◊ Lemon
  - ◊ Apple
- Surfaces: Air conditioning and air circulation system in vehicles.
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Vapour pressure: 4000/20 bar
- Storage stability: 10 y
- Content: 150 ML

### How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The aerosol should have room temperature. Best processing temperature 5 to 30°C.
- Before use, shake the aerosol.
- Start the engine and let the engine idle.
- Put both chairs and the back of the chairs in front position.
- Put the air circulation system on full power in the recirculation position.
- Place the Airco Refresher behind the chairs, activate the aerosol by once pressing the nozzle and close the door.
- After full evaporation of the Airco Refresher, the engine should idle for some minutes.
- Switch off the engine and ventilate the vehicle for approximately 10 minutes.

### Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

### Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

### Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

For any further technical questions call our hotline +31 (0) 561 69 44 00 from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

As of June 10, 2022 – This release replaces all eventually earlier issued versions.
